

K-Love does serve in the local community in broadcasting a positive voice to young and old alike. The message of life and hope are more significant to lives than we could possibly know. If this program were replaced by an LPFM broadcaster, it would be a huge loss to our community as well as to many states across America. It is very much in the public interest to keep K-Love station because I beleive it is of great value to help many youth who might otherwise have given up on life. It is a source of help to even guide youth in the right direction. Even struggling adults who need help in getting their lives going in the right direction. It is a needed voice in our community. Please keep this station going strong.
